PROFILE

QA Lead / Test Analyst with over 8 years of experience in functional testing, user acceptance testing and release validation across e-commerce, retail, OMS, web and mobile environments.

Used to Agile contexts, I cover the whole chain: analysing specifications, designing test cases, running acceptance campaigns, qualifying defects, API testing, SQL checks, batch validation and post-release monitoring. A hands-on, rigorous profile, equally comfortable with business and technical teams.

Availability and languages:

- Available immediately
- French (Written and Spoken: Native)
- English (Written and Spoken: Fluent / Bilingual)

SKILLS

- **Testing & UAT:** functional testing, regression testing, sanity checks, acceptance testing, test campaigns, post-release validation.
- **API & data:** web service testing, JavaScript scripting in Postman, database checks.
- **Quality management:** defect tracking and prioritisation, RUN, coordination across product / dev / business teams.
- **Tools:** Jira, Xray, TestRail, TestLink, HP Quality Center, Postman, Bruno, Swagger, SQL Developer, Git, GitHub.
- **Environments:** OMS, PrestaShop, Magento, Android, iOS.
- **Methods:** Agile / Scrum / Kanban.

EXPERIENCE

Kiabi

QA Lead / Functional QA

March 2022 – July 2026 · 4 years and 5 months · Hem, Hauts-de-France, France

Context: Assignment on an internal OMS order management tool in an e-commerce / retail environment, working within Agile teams.

- **Secure** application changes through functional testing, API testing, batch validation and data checks.
- **Create and control** database test data sets to validate order journeys and the related processing.
- **Test** web services with Postman, Bruno and Swagger, and verify data exchanges between systems.
- **Automate** recurring checks through JavaScript scripts in Postman to make validations more reliable.
- **Track** defects, RUN activity and post-release deliveries, in coordination with business and technical teams.
- **Manage** test environments and database refresh requests.

Tools used: Postman, Bruno, Swagger, SQL Developer, JavaScript, OMS, Jira, Agile.

PrestaShop

QA Specialist

August 2020 – November 2020 · 4 months · Paris, Île-de-France, France

Context: Assignment on the PrestaShop back office and front office, within a six-tester Agile team working in Kanban.

- **Create, run and track** test cases in TestRail across back-office and front-office journeys.
- **Qualify and validate** defects reported by the GitHub community.
- **Test** pull requests before integration into the main branch, using Git and GitHub.
- **Track** activity, prioritise topics and take part in the team's Agile ceremonies.

Tools used: PrestaShop, TestRail, GitHub, Git, Jira, Agile / Kanban.

Kiabi

QA Test Analyst

December 2017 – July 2020 · 2 years and 8 months · Lille, Hauts-de-France, France

Context: Assignment on Kiabi internal applications, including the Oskar Android mobile app used daily in stores.

- **Analyse** functional and technical specifications, then design the matching test cases.
- **Run** acceptance campaigns, regression tests and sanity checks ahead of each release.
- **Qualify, report and track** defects with the project teams through to resolution.
- **Test** the Oskar Android mobile app and present new features to in-store users.
- **Carry out** API testing and data checks with Postman and SQL, in Scrum / Kanban contexts.

Tools used: Jira, TestLink, Xray, SQL, Postman, Android, Agile / Scrum / Kanban.

Voyages-sncf.com

QA Tester / Test & Acceptance Analyst

March 2017 – December 2017 · 10 months · Paris La Défense, Île-de-France, France

Context: Assignment on SNCF web and mobile journeys, with short release cycles in an Agile environment.

- **Write** test scenarios and run user acceptance testing on web and mobile.
- **Perform** cross-browser and mobile testing: acceptance, new features and regression at every sprint.
- **Qualify, report and track** incidents in HP Quality Center and Jira.
- **Act** as QA Lead on the OUIBUS Feature Team and take part in the rebranding to OUI.sncf.

Tools used: HP Quality Center, Jira, Firefox, Internet Explorer, Chrome, iOS, Android, Agile.

OTHER EXPERIENCE

- **Arthus Bertrand** | E-commerce Officer (2016 – 2017)
Running e-commerce websites, Magento catalogue management, promotional campaigns and the Augis website redesign.
- **Apple** | Family Room Specialist / Specialist (2015 – 2016)
Technical diagnostics, customer support and incident resolution in an English-speaking international environment.
- **BirdBrain Logic, Perth** | Digital Marketing Assistant (2013)
SEO / SMO, community management, link-building and WordPress content production.

EDUCATION

- **OpenClassrooms, France** | Software Development programme (2021 – 2022)
Course interrupted to take up a QA assignment · JavaScript, HTML/CSS, databases
- **Dublin Business School / ISEG** | Master's degree in Marketing / Digital Marketing (2012 – 2014)
- **Torrens University Australia** | Advanced Diploma – Marketing, Advertising, Economics (2010 – 2011)
